HON. GUS M. BILIRAKIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 1, 2023

Mr. BILIRAKIS. Mr. Speaker, I rise today to celebrate the service and commitment of Barbara Lincoln. Her dedication to our country throughout her lifetime demonstrates the true American spirit of sacrifice for the greater good.

Following the attack on Pearl Harbor, Mrs. Barbara Lincoln joined the United States Cadet Nurse Corps. She trained at the Lenox Hill Hospital for two and a half years, graduating in March 1947 as a registered nurse. Mrs. Lincoln then went on to work in several New York hospitals during the rise of polio. Despite already having a registered nurse's license, Barbara Lincoln continued her education, gaining a bachelor's degree in human health services and certifications to become a school nurse, teacher, and nurse practitioner.

In 1949, Barbara Lincoln married Donald Pantke and had three children. Unfortunately, her husband Donald passed away when she was 35, leaving her a single mother. Still, she persevered to provide for her family. In 1967, she eventually remarried to Judson Lincoln, a major in the Air Force. Their blended family had 7 children, larger than the Brady Bunch.

Today, Mrs. Barbara Lincoln is an active member of First Christian Church in Inverness, as well as a retired military group. She still finds time to be active and give back to her community through volunteering at Precious Paws Rescue. Mrs. Lincoln is also a loving grandmother to 15 grandchildren and great-grandmother to 18 great-grandchildren. Mrs. Barbara Lincoln's legacy truly represents the American dream through her marvelous life full of patriotism, courage, and determination.

REDUCE EXACERBATED INFLATION NEGATIVELY IMPACTING THE NATION ACT

SPEECH OF

HON. BETTY MCCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 28, 2023

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 347) to require the Executive Office of the President to provide an inflation estimate with respect to Executive orders with a significant effect on the annual gross budget, and for other purposes:

Ms. McCOLLUM. Madam Chair, I rise in opposition to H.R. 347, the REIN In Act.

House Republicans are claiming this bill will require the administration to publish the inflationary impact of executive actions before enacting them, but if Republicans had taken the

time to hold a hearing on this bill, they would have discovered that the bill merely requires the President to “prepare and consider” the inflationary impact—not publish it. This is yet another misleading political stunt from the new Republican majority.

For two years, House Republicans blamed President Biden and Congressional Democrats for inflation and promised they would fix it. Yet, they passed on the opportunity to work with Democrats to fight inflation by passing the Inflation Reduction Act to rebuild American manufacturing and lower the costs of prescription drugs, health care, energy, and other goods and services.

Since 2020, inflation has risen worldwide, exacerbated by supply chain delays caused by the COVID-19 pandemic. At the outbreak of the pandemic, Democrats worked swiftly to pass relief packages, helping American families and businesses survive while preventing economic collapse. Recent figures have shown that these programs worked: inflation is lower in the U.S. than in the U.K., Canada, and 20 European Union member states. Today, while Republicans offer this thoughtless bill, 432,000 Minnesotans and millions of other Americans who have benefited from the emergency SNAP funding are seeing their extra benefits run out. This bill does nothing to reduce everyday costs for these and other Americans.

Madam Chair, H.R. 347 is yet more proof that Republicans would rather blame President Biden and Democrats for inflation than take steps to address it.

It should be rejected.
